

Activity 2-1.
Mentor Relationships

Fill out the assessment tool and rate yourself currently according to Benner's stages. Compare this to where you were at the beginning of your nursing career. Share with group.

1. Describe an experience you had when you were a new nurse that you would do differently now.

2. Identify a goal for self-development.

3. Describe an aspect of nursing that means a lot to you, and that you would like to have your mentee learn and appreciate in clinical practice.
